Cinderella: Definition

There is no agreed definition!

Some approximations:

1. Anything that looks like a stamp but was not issued by the central postal authority to pay postage. [but — “looks like” = ???]
2. Any flat thing other than a cover which is related to the mails but is not listed in Scott’s (Gibbons, Yvert & Tellier, Michel, ...). [not mailboxes, stamp dispensers, et sim.]
3. Anything which can be made to fit into an album.

So, plunge into what cinderella collectors collect.

A

When I was six years old my older brother taught me to say “Donaudampfschiffahrtsgesellschaft” just as an American child might learn to say “antidisestablishmentarianism”.

B

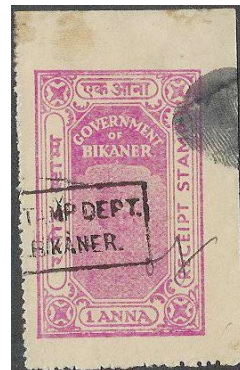

As a teenager I lived within walking distance of Tatham Stamp & Coin Company. My junior high school was one block distant from it.

C

Illustrated computer-generated meter stamp from our son and daughter-in-law’s wedding invitation.

D

The maharaja pictured on this stamp, playing the role of Santa Claus, handed me gifts at the Christmas parties he gave for the children of civil servants in 1938 and 1939.

E

As a child I played with my brother’s Anker Steinbaukasten (set of cast stone building blocks).
